

WHERE EVERY DOLLAR GOES

THREE WAYS TO EARN

1 · Direct Rewards — paid now

A **30% commission** on every Tech Pass payment — the activation and each monthly payment — by a member you personally referred. Flat-priced software, so your reward is never tied to anyone's trading results.

2 · The Ten Weekly Flows

Qualify for a Flow and hold **one credit** in it. Each Flow's weekly payout divides equally across all credits in it. Credits are earned, never purchased — and never shares, equity, or property.

3 · Mentor Match

Personally mentor a member into a Flow and earn **additional credits equal to 50%** of the credits they earn there — up to five matches at a time, one generation deep — the same rule in all ten Flows. Lifting others lifts you.

THE LADDER — REACH IT, THEN HOLD IT

FLOW	TO REACH — ACTIVE REFERRALS	TEAM POINTS	LEADERSHIP	TO HOLD
F1 · Launchpad 60d	1 active referral	100	—	1 active referral
F2 · Launchpad 60d	2 active referrals	200	—	1 active referral
F3	3 active referrals	400	—	2 active referrals
F4	5 active referrals	800	—	4 active referrals
F5	10 active referrals	2,000	Help 3 reach F3	7 active referrals
F6	15 active referrals	5,000	Help 4 reach F4	11 active referrals
F7	25 active referrals	12,000	Help 5 reach F5	18 active referrals
F8 · Leadership	50 active referrals	37,000	Help 6 reach F6	35 active referrals
F9 · Leadership	100 active referrals	132,000	Help 7 reach F7	70 active referrals
F10 · Leadership	150 active referrals	203,000	Help 5 reach F8	105 active referrals

Every count is a count of active members — your Flow reflects the team you have today, not lifetime totals. No monthly quota, and nobody is ever removed for failing to recruit: the requirement is a live team, not a new sale. Points are cumulative to reach, live to hold — team points build and are never taken away for reaching a Flow; holding one turns only on your active-referral count, and your own activity earns points too. Flows 1–2 are Launchpad Flows — new members are eligible from day one and graduate out after 60 days.

HOW YOU ADVANCE — WHAT EARNS A TEAM ACTIVITY POINT

+2 Active Member Milestone

A teammate verifies ID, completes core training, and funds their own account at their own exchange

+4 Mentor Milestone

A member you personally mentor opens their next Flow

+1 Course Module

Completed by you or a teammate in the education library

+1 Live Session

Livestream or strategy room attended by you or a teammate

+3 Advanced Interface

A teammate activates the advanced interface and puts it to verified use

+1/mo Active Streak

Each month you or a teammate stays active on the platform

An "active member" is one using the platform, not one paying it. Points are never granted for payments — not Tech Pass purchases, tiers, or performance contributions — and never for trading: no point comes from trading results, volume, or venue or instrument choices, yours or anyone's. Only verified activity counts, and advancement can never be bought at any price. Illustrative schedule pending counsel review.

THE FOUNDING POSITIONS — FULLY DISCLOSED

1 Four Founding Positions in every Flow — one seat for each of the Company's four owners, on exactly the same terms as any member credit: same amount per position, no multiplier, no override. Qualify and your credit pays what an owner's seat pays — "get paid like an owner," literally.

2 A Flow unlocks at five positions — and the Company's four count toward the five, so the first qualified member completes it.

3 No Flow pays out more than 75% of each payout while it awaits its first qualified member — the rest stays and builds for the members who reach it first.

4 The first member to earn in lifts the cap and unlocks the accumulated balance — together. They walk into a funded Flow.

5 Unlocked balances pay out to every position alike — the Company never paid ahead of members. Payment timing terms are in the Terms of Service.

6 No one can buy a position or a place in any Flow. Every distribution and accumulated balance posts in the weekly results.

Program in development — illustrative pending counsel review. This page is a summary only; the plan documents govern (Marketers Disclosure §3A, Plan Rules v2026-08, Terms of Service §4A). Structure, names, and numbers are subject to change and attorney review. Flow payouts are rewards for verified activity and personally referred sales — not equity, ownership, dividends, pooled investment returns, or compensation for recruiting. No income of any kind is promised, projected, or implied; most marketers should expect modest earnings, and many earn nothing. Credits are bookkeeping units for distribution only. Company and founder proceeds are excluded from all member earnings statistics. AI Trade Flow LLC · compliance@[DOMAIN]
