

Cookie Notice

AI Trade Flow — Advanced Education and Trading

Effective Date: [DATE] · Last Updated: [DATE]

1. What This Notice Covers

This Notice explains how AI Trade Flow LLC uses cookies and similar technologies (local storage, pixels, and SDKs) on its website and member portal, and how you can control them. It supplements our Privacy Policy.

2. What Cookies Are

Cookies are small text files placed on your device by a website. Some are essential to make the site work; others help us understand usage or remember preferences. Similar technologies perform comparable functions in apps and browsers.

3. The Cookies We Use

Strictly necessary. Session, authentication, security, load-balancing, and cookie-consent cookies. These are required for the site and member portal to function and cannot be switched off.

Preferences. Remember settings you choose, such as display options and dismissed notices.

Analytics. Help us understand how visitors use the site — pages viewed, time on page, navigation paths — so we can improve it. Where required by law, these run only with your consent, and data is aggregated wherever possible.

Marketing and referral attribution. Where used, these record that you arrived via a referral or campaign link so that referral credit and campaign measurement work correctly, and may support limited advertising measurement. They run only with your consent where the law requires it, and we do not sell personal information.

4. Third-Party Cookies

Some cookies are set by service providers acting on our behalf — analytics, video hosting, payment and identity-verification vendors, and support tools — under contracts restricting their use of the data. Embedded content (such as hosted video) may set its own cookies governed by that provider's policies.

5. Your Choices

You can accept or decline non-essential cookies through the consent banner on your first visit and change your choice at any time via the "Cookie Settings" link in the site footer. You can also block or delete cookies in your browser settings; doing so may impair site functionality. Where your browser sends a Global Privacy Control signal, we honor it as an opt-out of any sale or sharing of personal information to the extent required by law.

6. Retention

Session cookies expire when you close your browser. Persistent cookies expire after set periods, generally no longer than thirteen (13) months for analytics and marketing cookies, unless you clear them sooner.

7. Changes and Contact

We will update this Notice as our practices change. Questions: [privacy@\[DOMAIN\]](mailto:privacy@[DOMAIN]) · AI Trade Flow LLC, [ADDRESS]
